Morbi, Gujarat, India - 363641

EDUCATION

Master of Computer Applications (MCA)
Marwadi University, Rajkot
2024 – Present | Pursuing

Bachelors of Computer Application (BCA)
OMVVIM College of IT and Mgt.
Affiliated to Saurashtra University
Percentage - 68%

Higher Education (12th HSC)
DJP Kanya Chhatralay, Morbi
12th Percentage - 69%

Secondary Education (10th SSC)
DJP Kanya Chhatralay, Morbi
10th Percentage - 77%

SKILLS

Programming
Python | Java | JavaScript | HTML | CSS

Databases
MySQL | SQL

Libraries & Frameworks
Pandas | NumPy | Matplotlib

Developer Tools & IDEs
Android Studio | VS Code | Jupyter Notebook | MS Office

CERTIFICATES

Google for Education – AI Masterclass
Issued by: Google for Education | 2026
Comprehensive certification program covering Generative AI Fundamentals, Machine Learning Basics, and Prompt Engineering Concepts.

COURSES

Full-Stack Web & Python Foundations
Marwadi University Academic Labs
Rigorous curriculum covering Object-Oriented Programming (OOP), Data Structures, database schema normalization, and REST API development.

LANGUAGES

English ●●●●○
Hindi ●●●●●
Gujarati ●●●●●

INTERESTS

Technical Interest
Software Development | Web Technologies | Database Systems | Object-Oriented Design

PROJECTS

The Fashion Fusion – E-Commerce Website
React.js | Node.js | Express.js | MongoDB | JWT
Developed a responsive full-stack fashion e-commerce web application featuring user authentication, dynamic product catalog, shopping cart state management, and streamlined checkout workflow designed for scalable web deployment.

Interactive Sudoku Application
Java | XML | Android Studio | Android SDK
Engineered an interactive mobile game in Android Studio using Java and XML. Implemented dynamic grid rendering, user move validation algorithms, backtracking puzzle verification, and responsive mobile layouts across device sizes.

Python Tic-Tac-Toe Desktop Application
Python | Tkinter | Object-Oriented Programming (OOP)
Developed a desktop GUI application using Python and Tkinter applying OOP principles. Built event-driven grid mechanics, conditional win-state detection algorithms, move tracking, and instant board resets.

Data Analysis and Visualization Project
Python | Pandas | NumPy | Matplotlib | Jupyter Notebook
Analyzed multi-dimensional datasets using Python, Pandas, and Matplotlib within Jupyter Notebook. Conducted systematic data cleaning, vectorized transformations, and created graphical reports for actionable trend insights.

ACADEMIC ACTIVITIES & WORKSHOPS

Full-Stack Web & AI Automation Bootcamps
Marwadi University & Technical Programs
Participated in intensive practical sessions on modern web development architectures, REST API integration, and Python scientific scripting for real-world software problem solving.

Technical Project Presentation & Seminar
OMVVIM College of IT and Management, Morbi
Presented technical seminar on desktop software engineering and GUI architecture, demonstrating strong object-oriented design logic, clear presentation skills, and algorithmic thinking.

Collaborative Coding & Software Design Labs
Department of Computer Applications, Marwadi University
Engaged in university peer coding labs and algorithmic problem-solving sessions, collaborating on data structures, database schema normalization, and software best practices.
